

Manufacturing Company Reduces Inventory Costs by 28%

Manufacturing

\$2.1B Revenue

GoodStock Pro

Key Results

28% Carrying Cost Reduction: From \$580M to \$418M

99.2% Service Level: Up from 94.2% baseline

\$3.2M Annual Savings: Net cost reduction

The Challenge

This Fortune 500 manufacturing company was struggling with complex inventory challenges across their global operations. With 15 manufacturing facilities, 45,000 SKUs, and a complex supply chain spanning multiple continents, they faced significant operational inefficiencies.

The Solution

GoodStock Pro delivered BOM-aware optimization, multi-location analytics across 15 facilities, AI-powered forecasting, and automated replenishment.

Client Testimonial

"GoodStock Pro transformed our inventory management from a constant headache into a competitive advantage. The 28% reduction in carrying costs while improving service levels to 99.2% exceeded our wildest expectations."

— Operations Director
